

CS5056 Data Analytics

March 17, 2021

Class 6/16

Agenda

**COMMENTS ON HWA3,
FPA2, MIDDLETERM EXAM,
CONFERENCES, AND CASE
STUDIES**

**HANDS-ON EXERCISE
ON MODEL
EVALUATION**

**TIME:
PANEL DATA (FC) AND
TIME SERIES ANALYSIS
(HC)**

**LOGISTIC
REGRESSION**

**HANDS-ON
EXERCISES USING
PYTHON, R, WEKA**

CS5056 Data Analytics

March 24, 2021

Class 7/16

Agenda

**UNCERTAINTY:
THE BAYESIAN
APPROACH**

**BAYES
CLASSIFIER**

**BAYESIAN
NETWORKS**

**EXPECTATION
MAXIMIZATION**

**HANDS-ON EXERCISES
USING PYTHON, R,
WEKA**

Active Learning

With Various Hands-on Exercises in Python and R

**Enjoy the Class and have
Fun!!!**

HWA3

Q1 – Overfitting

Q2 – QS Rankings

Q3 – House

Pricing v

FPA2

Q1 – Fitting a Model to Data

Q2 – Keystroke Dynamics

**Q3 – Model Selection
(Frydman)**

FPA3

Q1a – KNN (Ch6)

Q1b – Unbalanced DS (Ch7)

Q1c – ROC/AUC (Ch8)

Q2 – FP (Model Validation)

Conference Presentations

Gregorio

Gabriel

Genaro

Víctor

ICDATA'21

The 17th International Conference on Data Science

July 26 – 29, 2021 – Las Vegas, Nevada, USA

Welcome to the 17th Int. Conference on Data Science (ICDATA'21)

Non-Attendance Policy/Presentation Modes due to Coronavirus/COVID-19 – please see info [here](#).

We invite you to attend ICDATA'21 and to submit papers. ICDATA'21 offers a 4 day single-track conference, keynote speeches by world renowned scientists, special sessions and free tutorials on all aspects of data science. In the past, the data science conference has attracted a lot of presentations in formal sessions plus keynotes, and excellent tutorials, with a lot of attendees plus many more visitors from other conferences of the congress.

For further information on the 2021 World Congress in Computer Science, Computer Engineering, and Applied Computing (CSCE'21) and its conferences, please use the following link: [CSCE'21](#)

ICDATA'21 is part of CSCE'2021. ICDATA'21 is an international conference for academics and practitioners held simultaneously with other joint conferences as part of [CSCE'21](#), the 2021 World Congress in Computer Science, Computer Engineering, and Applied Computing. CSCE'21 is one of the largest annual gatherings of researchers and practitioners in computer science, computer engineering and applied computing. Each of the joint conferences in CSCE is a premier conference for presentation of advances in their respective fields. The congress includes **20 major tracks** composed of 122 technical, research, and panel sessions as well as a number of keynote lectures and tutorials. All will be held simultaneously, same location and dates (July 26-29, 2021) to facilitate cross-disciplinary knowledge transfer. This year's Congress will be a hybrid event that combines a "live" in-person event with a "virtual" online component.

It is anticipated that CSCE'21 will attract between 1,000 and 2,000 participants from about 75 countries/territories. Participants range from established researchers on Professorial level, starting researchers (post-doc, PhD, Masters and Bachelor level) and contract researchers unto practitioners applying all aspects of data science in private or public companies or research institutions. 2019, 54% of attendees were from academia, 25% from industry; 20% from government and funding agencies; and 1% unknown. About half of the attendees were from outside USA; from 69 nations.

ICDATA'21 attracts quality papers & presentations. The data science conference has been highly ranked in the past. Please to not confuse ICDATA (formerly DMIN) with other „multi-conferences“ with approximately 100% acceptance rates. The conference maintains its own program committee and manages its own thorough and objective [review process](#) of at least 2 independent reviewers (leading academics & practitioners). Over the past ten years, ICDATA has an average acceptance rate of approximately 50%. While this rate is not as low as for some top-tier conferences, it is respectable and still allows researchers from less developed countries to actively participate in the conference.

Publication & Indexing. Due to the high quality of published papers in the proceedings of CSCE in recent years, this year (2020) ALL accepted papers will be published by **Springer Nature**.

Publisher: Springer Nature – Book Series: Transactions on Computational Science & Computational Intelligence, <https://www.springer.com/series/11769>
